

4. Collect data from your friends, neighbors and classmates to know more about "milk teeth"

Tabulate you data, one way of doing it is given below:

S.No	Age at which first tooth fell	Age at which last tooth fell	No. of teeth lost	No. of teeth replaced
1				
2				
3				
4				
5				

Find out from at least twenty children and find out the average age at which children lose the milk teeth. You may take help of your friends.
